

Contents

Preface	5
Introduction	6
<u>Plenary Sessions</u>	
Charles R. HILDRETH: End users and structured searching of online bibliographic databases: recent research findings*	11
Masanobu FUJIKAWA: Concept theory and facet analysis of knowledge units - with emphasis on AI research	-
Alan GILCHRIST: Knowledge organization and the human interface - a personal view from the UK on developments*	12
Otto SECHSER: On organization problems of databanks from machine- readable text data*	13
Brian C. VICKERY: Classificatory principles in intelligent interfaces	14
Roland HJERPPE: A framework for characterizing systems for knowledge organization: a first basis for comparisons and evaluation	21
Karen Markey DRABENSTOTT: Experiences with online catalogs in the USA using a classification system as a subject searching tool	35
Erich MATER: Problems of intellectual and computerized contents analysis*	47
Hanne ALBRECHTSEN: Software concepts: Knowledge organization and the human interface	48
<u>Workshop A: "General Issues"</u>	
J.A. BOON: The integration of technology in the organization and dissemination of information*	64
Robert FUGMANN: Unused opportunities in indexing and classification	65
Vesa SUOMINEN: Structure of meaning in descriptions of document contents: a semiological approach*	78
Gerd BAUER: Promoting creative processes by a thesaurus-like representation of knowledge structures*	79
<u>Workshop B: "Algorithmic Text Analysis"</u>	
Renate DEFFNER, Hans GEIGER: Associative word recognition with connectionist architectures	80
Gerda RUGE, Christoph SCHWARZ: Linguistically based term associations. A new semantic component for a hyperterm system	88
Richard BOUCHE, Sylvia LAINE, Jean-Paul METZGER: Knowledge retrieval from a documentary set*	96
Marek CIGANIK: Key faceted structures in the text as background of text understanding*	97

Titles marked with a * at the end are only included with their abstracts.

Workshop C: "Terminology"

Widad MUSTAFA ELHADI: The contribution of terminology to the theoretical conception of classificatory languages and thesaurus indexation	98
Christian GALINSKI: Specialized encyclopedias and lexicons processed on the basis of the methods of terminological knowledge engineering*	107
Wu GUANG-WEI: Survey of term equivalence between English and German, Japanese and Chinese	108
E.ten PAS: On the role of definitions in terminology*	112

Workshop D: "Knowledge Organization by Universal Systems"

Eric de GROLIER: "Unified" classification: theory and practice*	113
Edouard SUKIASJAN: Description and analysis of the Library-Bibliographical Classification (BBL/LBC)	114
Gerhard RIESTHUIS, Steffi BLIEDUNG: Thesauring of the UDC*	122
Werner BIES: Die Rezeption von Regelwerken zur Sacherschließung: Das Beispiel RSWK. (Reception of subject cataloguing codes: the example of the RSWK - Rules for Subject Cataloguing)	123

Workshop E: "Knowledge Organization in Special Systems"

Gerhard BUDIN: Terminological problems in the organization and presentation of biological knowledge*	131
Erich WEIHS: General concept categories for the formation of a thesaurus as part of a Bavarian soil information system*	132
Padmini RAJ: Position and organization of the subject content of anaesthesiology in different library classification systems	133
A.A.N. RAJU: Indology - Problems in its classification and organization in libraries, with special reference to the UDC (IME, 1965) and the CC (7th ed., 1987)*	144

Workshop F: "Thesaurus Issues"

Alice STERN: On the construction of a superthesaurus based on existing thesauri*	145
Tim CRAVEN: Automatic structure modification in the graphic display of thesauri	146
Lorna K. REES-POTTER: Cognitive aspects of dynamic thesauri*	154
Michael EISNER: New thesaurus qualities of ARBOR	155

Workshop G: "Online Retrieval"

Winfried GÖDERT: The design of subject access elements in online catalogues*	161
Hemalata IYER: Online searching: Use of classificatory structure*	162
Anatol VASILJEV: Enhancement of the subject access vocabulary in an online catalogue	163
Mary DYKSTRA: "Handling the stuff itself": Toward automated text analysis and retrieval using a database of controlled abstracts	171

Workshop H: "Knowledge Organization in Special Systems II"

Pnina WENTZ: Knowledge organization in museums*	172
Hans CZAP: Representation of ramified economic concepts and facts*	173
Josef HÜLZL: Expertensysteme in Produkt- und Warenwirtschaft (Expert systems in product and commodity economics)*	174
Jutta Vischer: Das Harmonisierte System zur Bezeichnung und Codierung der Waren des internationalen Handels (The Harmonized System for the naming and encoding of international trade commodities)	175

Workshop J: "Hypermedia"

Arek LESCH, Peter SZABO: Hypermedia approaches	183
Lisbeth BJÖRKLUND: HYPERCLASS. Four hypertext applications of a classification scheme	190
Lisbeth BJÖRKLUND: Problems of knowledge organization in an archival environment - KAM	199
Roland Hjerpe: The role of classification in Hypertext. Issues in implementing Roget's thesaurus as a hypertext	206

Workshop K: "Retrieval from Universal Systems"

Hannes HUG; Meta WALSER: Retrieval in the ETH database using the UDC	216
Nancy WILLIAMSON: Preparing retrieval with the Library of Congress Classification*	220
M.A.GOPINATH: Computer-based knowledge organization with the Colon Classification	-

Workshop L: "Retrieval Technologies"

Alina VICKERY: Knowledge organization in an intelligent tutoring system	221
Veronika OECHTERING: On the problem of transparency of individual computer technologies in subject-oriented online retrieval*	229
Marlene ROCKMORE: Facet analysis and thesauri for corporate information retrieval*	230
Michael SCHOPEN: Cross file searching of biomedical databases at DIMDI	231

Workshop M: "Indexing"

Claus POULSEN: An indexing concept supporting subject access for innovation and creativity*	238
R.G. PRASHER: Index and indexing	239
M.PARAMESWARAN: Chain procedure and Dewey Decimal Classification	250
Mirja IIVONEN: The impact of the indexing environment on interindexer consistency	259

Additional Papers:

Pat MOLHOLT: Standardizing and codifying related term links for improved information retrieval	262
Dagobert SOERGEL: Improved access to the LC Classification and the LC Subject Headings for online searchers and catalogers through conceptual analysis*	276
Authors (alphabetical with addresses and page numbers)	277
